

A NEW NAME IN *ENCALYPTA* (BRYOPHYTA)
НОВОЕ НАЗВАНИЕ В РОДЕ *ENCALYPTA* (BRYOPHYTA)

MICHAEL S. IGNATOV^{1,2} & VLADIMIR E. FEDOSOV¹

МИХАИЛ С. ИГНАТОВ^{1,2}, ВЛАДИМИР Э. ФЕДОСОВ¹

Abstract

A new name *Encalypta stoneae* Ignatov & Fedosov is proposed to substitute illegitimate *Encalypta novae-valesiae* (Broth. ex G. Roth) Ignatov & Fedosov, an Australian and South African species.

Резюме

Предложено новое название для распространенного в Австралии и Южной Африке вида – *Encalypta stoneae* Ignatov & Fedosov, замещающее незаконно обнаруженное название *Encalypta novae-valesiae* (Broth. ex G. Roth) Ignatov & Fedosov.

KEYWORDS: mosses, nomenclature, Encalyptaceae

In the course of molecular phylogenetic studies of *Discelium* and related groups (Ignatov *et al.*, 2016) we found that the genus *Bryobartramia* is deeply nested in *Encalypta* and therefore transferred two species of this genus to *Encalypta*. However, we overlooked that one of these names appeared to be a later homonym, and thus illegitimate. Here we correct this nomenclatural error.

Encalypta stoneae Ignatov & Fedosov, nom. nov. — *Trachycarpidium novae-valesiae* Broth. ex G. Roth, Hedwigia 53: 94. pl. 2: f. 8. 1913. — *Bryobartramia novae-valesiae* (Broth. ex G. Roth) I.G. Stone & G.A.M. Scott, J. Bryol. 7: 604. 1973 [1974] — *Encalypta novae-valesiae* (Broth. ex G. Roth) Ignatov & Fedosov, Arctoa, 26:

283. 2016. nom. illeg. (blocking name *Encalypta novae-valesiae* Hampe, Linnaea 37: 513. 1871-1873 [1872] (Oct. 1872).

Ethymology: In honor of Ilma G. Stone (1913-2001), Australian bryologist.

ACKNOWLEDGEMENTS

We thank John Atwood for drawing our attention to this mistake.
